

Personal Growth & Goal Achievement Platform for Women

Do you want lasting change so you can achieve your desired results?

We are IGNITE Her Society and results are our specialty.

The IGNITE Her Society is a unique personal growth & goal achievement platform with its own mobile app so we can help women DAILY, Weekly and monthly with amazing trainings, mindset coaching and community.

In IGNITE Her Society we believe our results are directly tied to our mindset. But we don't believe mindset means positive thinking. Mindset is not inspiration. Mindset is not motivation.

You must CREATE the right mindset for the right results -- by going to the mental gym daily. We believe mindset is attitude in action...every day. Not something we work on every so often.

Mindset in motion creates momentum to manifest anything.

We are on a mission to help women wake up from the fog of shoulds and live a life by design filled with purpose and prosperity.

We are ready for YOU to join the Society to wake up from the fog and live the life that you WANT.

Wherever you currently are, we want you to know, becoming a member of IGNITE Her Society will be one of the best decisions you can make. The possibilities are limitless when you increase your awareness and take care of your mind daily.

The Mindset Method School

I am a Bostonian transplant in New York (yes, that can be fun!), but more importantly I am on a mission. A BIG mission. And it includes YOU.

More on where YOU come in in a moment. I spent 20 years in the Fortune 500 corporate world as a marketing Vice President. When I turned 40, making half a million, beautiful home, amazing family, I felt that something was missing.

I felt GUILTY for even thinking I wanted more. But what I wanted more of, was PURPOSE.

I followed that desire, left corporate and started my own coaching company. My mission? To help women design their lives on PURPOSE and not on SHOULDS.

I now serve clients and train coaches on a method to do just that. Life by design.

Here is where I need YOU. We need more torchbearers in this world! Women who have woken up from the fog of shoulds to live a life the truly WANT filled with purpose, passion & prosperity who then pass this awareness down to future generations. I am on a mission to help thousands of women take this mission forward.

Are you up for the challenge?

# WHAT IS DIFFERENT ABOUT

### IGNITE HER SOCIETY?

The foundation of what we teach in the Society is that a new mindset means a new attitude. And that this attitude must be practiced daily in action.

Why?

### Because the secret is in who you are **BEING**

Most goal coaching is about creating a plan and then having accountability and checkpoints to ensure the plan is met. But no real change is created and without a coach or community, you reset back. We teach you how to permanently "evolve" to be the person who has the goal already achieved.

You will be taught a method to BECOME the person who has the results you want. When you then apply this method with daily action, you will achieve incredible results. Results that last.

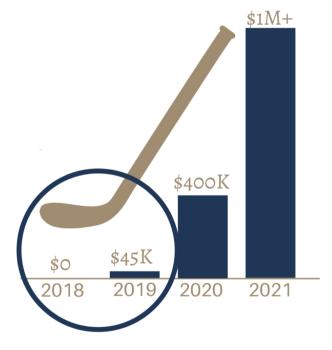

After leaving her 20 year corporate career, Julie became a certified life & business coach. She studied with some of the best in the industry. As she worked with 100s of clients, she noticed a trend. Her clients would KNOW what to do, but weren't actually DOING what was required to get results. What was going on?

Julie decided to look at her own journey to achieve incredible goals and found the missing piece that she knew needed to be incorporated in her work coaching clients.

Julie decided to teach her clients the secret to her own success.

"Learning this method is what catapulted my business results."

Julie Ciardi

2018-2019 were tough years working to grow her coaching business to the level of her corporate career. In 2019 she heard the words that would change the trajectory of her business, "we can't outperform our identity." The missing piece in the mindset coaching was working on the identity, or the being, of the client.

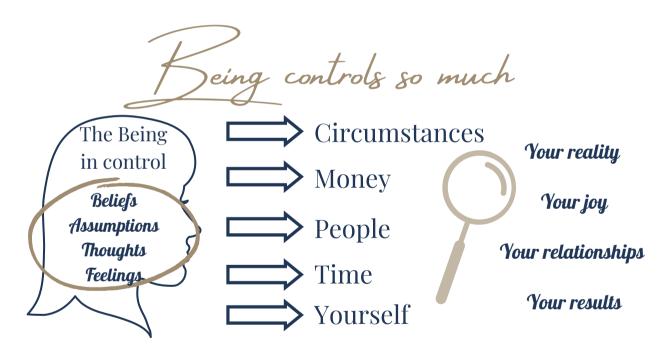

In 2019, Julie started to BE a 6 figure CEO, well before the results were in. And that is what catapulted her business in 2020.

There is something so important to understand when trying to accomplish a goal.

It doesn't matter what the goal is - fitness, weight loss, marketing, business, finances, relationships, network marketing, life, career, etc. - no matter how well you do what you're supposed to, only some people will get results.

Why? Because we are human beings not human doings. The "being" doing the "doing" matters MORE than the doing itself.

In IGNITE Her Society, we teach you how to target the most important aspect of real, lasting results......**THE BEING**.

All goals require GROWTH. Growth in the person themselves. Imagine having the tools to help you with the true growth required to then get the results you have always wanted?

## HOW WE ARE BEING IS OFTEN REFERRED TO AS OUR PARADIGM...

A paradigm is that collection of beliefs, thoughts, assumptions and stories that we think so habitually that we actually think them to be facts.

The paradigm, our programming, is what is in control. So we need to build a new paradigm, a new way of being to achieve our goals.

However, it is really important to become aware of what habitual thoughts, stories, assumptions and beliefs you have thought true all these decades.

That is why we use what we call......

#### The Paradigm Power Tool!

The best tool we have found and use in our Society is the Enneagram. If you are not familiar with the Enneagram, it is sort of like a personality test, but we use it to see what our past habitual thinking and programming has been.

We slay the old paradigm with this incredible tool and then we build into the new paradigm leveraging it as well. It is INCREDIBLE. It has changed so much for our clients.

When you join the IGNITE Her Society, **you will have the opportunity to upgrade to get typed by an Enneagram specialist.** You will be able to test drive this powerful mindset tool yourself. We also have twice monthly Enneagram education!

We know starting something new and exciting can feel overwhelming! That's why when you join us in The IGNITE Her Society, we point you towards our Getting Started Guide and our step by step instructions on how to cut out overwhelm and make the most of your first few weeks in the Society!

The purpose of the IGNITE Her Society is to provide training, coaching, inspiration, and community to help you create amazing results in your life. Those results could be in a relationship, in business, money, career, health, fitness.....or even in figuring out your purpose.

To do this we want you to start with our foundational training program called, BEcoming Her is the Secret. This is a 9 lesson program with worksheets and resources that teach you the foundational blueprint to achieving any goal, to create any result.

We have a recommended approach to completing this program so you really start to see results & change in your life.

This foundational program is then supplemented so that you begin to LIVE the teachings in your daily life and see the amazing results come to fruition.
